

SPECTRUM

**Electrical And
Instrumentation
Services LIMITED**

ATTENTION!

**Please read the following before proceeding to our
rate sheet.**

To our potential new client,

I am very grateful that you have taken time to check out my business, it means the world to me. Thankyou so much!

Many businesses do not post their rates, a practice that I feel is a mistake. I am a fan of window shopping and price checking, and I would like to make it possible for you to do so as well.

Our pricing is based on Oilfield services. We are available to clients in all sectors of Industrial and Commercial and understand that prices fluctuate from market to market.

I would very much like to have a conversation with you if pricing is the only factor holding you back from reaching out.

I am looking to build real, long-term client partnerships, and am very willing to discuss terms that benefit all parties involved.

Thankyou again for your time and consideration, I look forward to hearing from you.
